With the much enlarged storage capacity developed by the immense Magnolia Steel Storage Tank or elevator, these mills will have a total storage of 40,000 bushels of grain. The liberal method inaugurated by Mr. R. A. Carr to accept grain, storage free, when desired, until January 1st, 1906, will bring wheat from long distances to this point and will strongly aid this city as a receiving market.

Just before going to press, a prominent farmer, located hard-by Maysville, who had yesterday started to cut his wheat, and desisted because it was yet green, mentioned that on making a careful, close examination, he discovered that instead of a yield of 30 to 35 bushels per acre, that many of the heads were blasted or unfilled, and per consequence, figured that about 20 bushels per acre would be his yield.

Two Conventions and Two Candidates For Legislature in Fleming

Yesterday was the day for nominating a Democratic candidate for Representative from Fleming county.

There were two candidates, Hon. Paul Hedlin and Editor J. D. Wyatt.

In Saturday's Primaries Hedlin had 19 instructed votes and Wyatt 20, and it took 21 to win.

There was one contested delegation on hand, and yesterday one County Convention gave one nomination to Mr. Hedlin.

Thereupon the Hon. Ella K. Hart "bolted," held another Convention and gave another nomination to Editor Wyatt.

Verily, "politics is hell!"

WHAT HE DIDN'T KNOW

How An Enthusiast Amused the Late Grand Jurymen

Some people know a great deal. And don't say much; Some people don't know anything. But tell a whole lot.

And then there are others who talk all the time without saying a thing—except words. Colonel Knowitall belongs specifically to the latter class.

He is in business on a prominent street, and has business at times on all the streets, and consequently sees many things, of which he also tells many things.

And he had told so much about what he knew, and what he didn't know, that the late Grand Jury thought he'd be a mighty useful link in connecting certain parties with some of the numerous and populous gambling joints in the city.

Consequently the valuable Colonel was summoned.

In the ante-room, surrounded by a dozen or so "unwilling witnesses," he reeled off information by the furlong and so long that it looked like there would soon be a Jail full of gamblers.

Finally he was ushered into the Sanctum Sanctorum of the investigators.

And the first paper that the Foreman picked up was a memorandum that referred to some card playing in rooms over the business place of no less personage than Colonel Knowitall himself!

"Er, Colonel, do you know anything about this charge of gambling over your place?"

"No, sir."

And this was said with an emphasis that would have fractured the cheek of an ordinary mortal.

"Then it isn't true?"

"No, sir!—Not by a nine-foot stage Ohio River Dam site!"

"Well, do you know anything about gambling over the saloon of Mr. Simpkins?"

"No, sir."

"Or over the saloon of Mr. Simpkins?"

"No, sir!"

"Or over anybody's saloon, or anywhere else in the incorporated city of Maysville, Mason county, state of Kentucky, United States of America, in the year of our Lord nineteen hundred and froze to death—so help you God!"

"No, sir!—No, sir!—No, sir!"

And Colonel Knowitall emerged from the Grand Jury room and went into a back alley and kicked a hole in one of Ben Smith's brick gutters.

Moral—Talk is cheap, but it takes money to buy hams.

Common yellow soaps, made from cheapest tallow and grease, breed disease germs. With every bar of EASY TASK, the pure white soap, you get a disinfectant and germicide as well as a famous cleanser. 5c at all grocers'.

The latter part of the past week there was much complaint as to continued rainfall, and many farmers reported smut. Otherwise wheat was reported exceptionally good, both as regards quality and yield. With clear, bright weather through harvest and no more rain, it is expected that smut report may not materialize as bad as conjectured.
